

Bi-Annual Wellness Plan (for patients 10yrs old and up)

Want Great Savings on Your Dentistry?

We would like to introduce our new Dental Care Wellness Plan allowing you and your immediate family to take advantage of the full range of dental services we offer – all at significant savings!

Preventive Care for Better Health

Upon your first visit your oral health will be assessed and diagnosed based upon your absence or presence of disease. It is with this initial diagnosis that we can tailor the Wellness Plan to best meet your dental needs.

With recent studies linking oral problems to major health risks, regular preventive visits have become more important than ever! Gum disease has recently been linked to an increased risk of heart disease, stroke, cancer, Alzheimer's disease, rheumatoid arthritis, preterm birth, difficulty controlling blood sugar in diabetics and more.

Offering this Wellness plan is just one more way we are working to help you and your family stay healthy. Regularly reserved visits allow us to monitor your oral health and look for signs of instability such as cavities, oral cancer and gum disease. The earlier we see these signs and symptoms of disease, the more comfortable and conservative your treatments can be. Plus, the more conservative the treatments are, the less they usually cost.

Even Better than Insurance

Remember, the Dental Care Wellness Plan is not an insurance plan. There are no deductibles and no waiting period before the benefits can start. You can start saving on high quality dental care immediately!

A great plan for:

Retirees

Those with no dental insurance

Anyone who has been putting off dental work

**A thorough New Patient Exam and diagnostic x-rays (FMX) must be completed first in order to diagnose the status of your supporting gum tissue and bone level. **

A plan for individuals visiting the office bi-annually is \$495; which results in an average 30% savings off the office fees. The family plan is \$495 for the first family member and \$395 for each additional family member. This Wellness Plan is intended for individuals whose interval of care is bi-annual and provides you and your family with significant savings on dental care, including:

- Two dental exams per year
- Two hygiene visits per year
- Two Guided Biofilm Removal with advanced airflow technology
- Two fluoride treatments per year
- Two Oral cancer exams
- Any necessary 2-D radiographs at hygiene visits (Including FMX/Pano for established patients)
- 10 % savings on general restorative needs such as fillings and crowns (dentistry that is not cosmetic in nature and not associated with diagnostic wax-up)
- 10% savings on endodontic services
- 10% savings on limited/emergency exams with associated radiographs
- 20 % savings on active periodontal therapy and adjunct laser therapy

Excluded from Discounts

- ★ Comprehensive dentistry (involving more than 4 teeth in an arch), cosmetic dentistry, and implant/surgical procedures
- ★ Whitening
- ★ Invisalign Therapy
- ★ Products
- ★ Not combined with other courtesies/discounts
- ★ Cone beam computed tomography (CBCT)
- ★ Local anesthesia for hygiene services (additional 30 minutes to visit)

This plan, while based annually, will be honored for a window up to 18mo from date of enrollment.

If professional relationship ends prior to utilization of visits, the contract will be voided. Refunds will only be given if adjustments are less than the purchase price of the wellness plan. For example, if service adjustment equals \$500 and the purchase price of wellness plan was \$700, then \$200 will be refunded.

By signing this, you are acknowledging the benefits and limitations the plan provides. This plan is not transferable and expires 18 months from date of signature, even if all benefits were not utilized.
